

SCHOLARSHIP ELIGIBILITY QUIZ

Wondering if you can qualify for a financial award? **There's a scholarship out there for just about everyone.** The eligibility criteria varies. Academic achievement is not always mandatory for eligibility. Often, students who participate in school or community activities can win scholarships based largely on their extra-curricular involvement. Likewise, students with specific talents, hobbies, ethnic backgrounds or family affiliations can meet award qualifications.

Take the Scholarship Eligibility Quiz and see how many categories you can explore more fully to find an award that's right for you. **This is not an exhaustive list of scholarships but rather, a sampling of some of the many organizations that offer financial aid to graduating high school students.** Do some research of your own to find a financial award with your name on it!
